

Project Presentation

The **topic** of my project is my birthday in history.

*My project is about my birthday in history.

I **chose** it because I always wanted to know who else **was born** and what else **happened** on my birthday.

I was born on
תאריך

I **would like** to tell you a little about my work on the project.

The project **consists of** 8 parts.

*There are 8 parts in my project.

In the first part of the project I had to find four historical **events** that happened on my birthday. I had to **fill in** the table with the information about them. Then , I had to choose one of the events and answer **additional** questions about it. I chose.....It happened in.....
אירוע שנה

.....
.....
.....
The next **stage** was to find four famous people born on my birthday and again **fill in the table** with the **information** about them. As in the **previous section** I had to choose one of these people and answer **additional** questions about him/her. I chose.....
שם המפורסם
He\she was born in.....שנה.....He\She is famous because he/she is a.....
מקצוע

.....
.....
.....
What is more , I had to write a letter to**describing** some problem I had
שם המפורסם

and **ask for advice**. The **following** part of the project was a reflection in which I had to **express my opinion** on the project **procedure**. And finally I **collected** all the **sources** I used for this project which were mostly from the Internet and put them into the bibliography section.

It took me about a month to finish the project.

The most surprising thing in the project was the fact that.....
שם המפורסם had his\her birthday

on the same day I did . The whole work was not so easy. When I had **problems**, my teacher/.....helped me **overcome** them.

There were many things that made my work **difficult** such as to find relevant information, to read long texts and write a project in English.

Working on the project **improved** such important **skills** as **time management**, **dictionary usage** and **summarizing** long texts. **After** working on the project I know more English words and can **better express myself** in writing and speaking.

To sum up, in general I can say that I **enjoyed** working on the project as it was such a **great experience** for me.

***Summing up, I would like to say that I liked the project very much.**
